The Marke transformer station in Kreis Bitterfeld, which was equipped with a 110-kV and a 220-kV installation prior to 1945, was dismantled by the Soviets. In the spring of 1954, the 110-kV section of the transformer station was rebuilt by the Karl Koeckert firm in Dessau. Plans for a reconstruction of the 220-kV section of the plant were prepared by the VEB Energieprojektierung (Power Planning) in East Berlin in mid-September 1954. The reconstruction of the installation is to be completed by the fall of 1955.
